---

When you and the Provider agreed to work on your project, both parties are provided with personal contact details for direct communication during the project implementation. However, if you expect to keep contact via JoomLancers, you could follow steps below:

1. Sign in your Buyer account.
2. Click **My Projects as buyer** on the top navigation
3. Click **Awarded Projects** in horizontal menu
4. Locate your project and click project title.
5. Locate Provider's bid and click **View/PostPM**.
