When a project is marked ***Awarded*** which means you and the Buyer mutually agree to work on your project, both parties are provided with personal contact details to communicate directly with each other during the project implementation. However, if you expect to communicate via JoomLancers, you could follow steps below:

1. Sign in your Provider account.
2. Click **My Bids> Awarded** in horizontal menu
3. Locate project and click on project title
4. In project page, locate your bid and click **View/PostPM**.
